

Cheltenham Racecourse signs up Helipad

The Jockey Club have appointed Helipad, part of the Hai Air group, to provide helicopter landing services for major events at Cheltenham Racecourse.

“Helipad has supported The Jockey Club since the 1970s”, explained Nick Cox, partner and Business Development Director for the Hai Air group. “Initially, services were professional, but rudimentary. But the demand for fast and efficient transport has grown, especially in the racing community – and so have our services.”

Today, Helipad provides fully serviced and heated terminal for passengers and a rest stop for pilots who have often travelled long distances with their passengers.

“Crucially, we run a well-managed airport. We have a safety record which many world envy”, added Nick. “We have experienced pilots on our team and understand the importance of maintaining the most exacting standards in the air and on the ground.”

Helipad is currently the only temporary heliport operator providing licensed heliports to CAA standards.

The long-term contract with the Jockey Club provides an opportunity for the Helipad team to stretch their capabilities still further. Helipad has added to their fleet of fire trucks and upgraded the online booking system. More is planned.

Helipad also provides similar services to racecourses at York, Newmarket, Epsom Downs and Chester.
